

Anshuman Patel

Software Engineer III | Backend & Cloud Engineer

Mumbai, India | +91 70081 57930 | patelanshuman6@gmail.com | github.com/patel-anshuman | linkedin.com/in/patel-anshuman

SUMMARY

Software Engineer III with 2.5+ years of experience building production fintech systems. Specialized in backend engineering, AWS infrastructure, PostgreSQL, and performance optimization. Delivered backend improvements of up to 25× and database optimizations of up to 15× while designing scalable APIs and business-critical workflows. Focused on solving complex engineering problems, improving system reliability, and building scalable production systems.

WORK EXPERIENCE

Software Engineer III — Precize Apr 2026 – Present | Mumbai, India

- Lead backend architecture for business-critical fintech workflows, driving scalability, reliability, and maintainability.
- Lead system-wide performance and reliability initiatives across backend services, PostgreSQL/RDS, and AWS infrastructure.
- Build production observability using Grafana and AWS CloudWatch to improve visibility and incident response.
- Drive AWS infrastructure improvements across Elastic Beanstalk, Lambda, RDS, S3, Route 53, and EventBridge.
- Mentor engineers and drive technical discussions around architecture, trade-offs, and system improvements.

Software Engineer II — Precize Apr 2025 – Mar 2026 | Mumbai, India

- Owned backend services and AWS infrastructure supporting business-critical fintech workflows.
- Improved backend application performance by up to 25× through application-level and architectural optimization.
- Improved PostgreSQL/RDS performance by up to 15× through database and query optimization.
- Designed and developed a B2B customer-support CRM supporting user calling, customer management, and conversion workflows.
- Built scalable REST APIs and financial workflows in close collaboration with Product and UX teams.

Full Stack Developer — Precize Feb 2024 – Mar 2025 | Mumbai, India

- Developed production backend services using Node.js, TypeScript, and Fastify; built REST APIs for investment workflows.
- Managed AWS deployments and production troubleshooting across application and infrastructure layers.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL
Backend: Node.js, Fastify, Express.js, REST APIs, WebSockets
Databases: PostgreSQL, MongoDB, Redis
Cloud: AWS, Elastic Beanstalk, Lambda, RDS, S3, CloudWatch, Route 53, EventBridge
Observability: Grafana, Monitoring, Logging
Engineering: Performance Optimization, Database Design, System Architecture, API Design

EDUCATION

Bachelor of Technology, Civil Engineering 2016 – 2020
Government College of Engineering, Keonjhar
